CP Plus NVR 7732NI K4 | CP Plus 360 Camera – Surveillance Solution

Upgrade your surveillance system with the **CP Plus NVR 7732NI K4** and **CP Plus 360** camera solutions, designed to deliver intelligent, high-performance security for residential, commercial, and industrial applications. The **CP Plus NVR 7732NI K4** is a powerful 32-channel Network Video Recorder that supports high-resolution IP cameras, making it an ideal choice for businesses, offices, schools, warehouses, retail stores, hotels, hospitals, and large properties. It offers efficient video recording, H.265/H.265+ compression, HDMI and VGA output, remote viewing, and seamless integration with multiple CP Plus IP cameras.

Pair the recorder with a **CP Plus 360** camera to achieve complete panoramic coverage with fewer blind spots. The 360-degree camera captures a wide field of view, making it perfect for monitoring large halls, reception areas, showrooms, classrooms, offices, and open commercial spaces. Advanced features such as smart motion detection, infrared night vision, real-time alerts, and remote mobile access ensure reliable monitoring around the clock.

Whether you're building a new CCTV system or upgrading an existing one, the combination of the **CP Plus NVR 7732NI K4** and **CP Plus 360** camera provides scalable, secure, and efficient surveillance. Designed for easy installation and dependable performance, this solution delivers crystal-clear video quality, centralized management, and enhanced security to protect your property 24/7 while reducing monitoring complexity and improving overall surveillance coverage.
